JavaScript, HTML5, CSS3,
jQuery, Underscore, SASS,
LESS, Backbone,
WebSockets, WebAudio,
CSS frameworks, Webpack

Short biography

I'm a full-stack developer with 10+ years experience. I'm excited about design, UX and creative hobbies in general. I've been part of two startup accelerators so far.

Work experience

> Green Fox Academy

2016 - 2018

I've mentored nearly 100 people and helped them to change their careers to become junior developers. In the last period of my job I've lead two in-house software projects where I worked with students to develop real products.

> Freelancer

2016

I've built various full-stack websites for clients and took part in smaller projects.

> Stunn

2013 - 2016

I founded a startup with the goal to build a browser based video editing platform. We reached private beta. I created all frontend code, UX.

Backend

PHP5+, Laravel,
CodeIgniter, Node.js, C++,
Python

Graphics

WebGL, Three.js, GLSL,
Canvas, Paper.js, SVG,
Processing,
OpenFrameworks

Workflow

GIT, Travis, Codeship, Jira

Spoken languages

- › Hungarian – native
- › English – fluent
- › German – basic

› CloudDeck

2012 - 2013

I founded a music startup to collect and analyze music from the web with my own search bot, using the SoundCloud API.

› Rebel Rouse digital agency

2010 - 2012

I was the head of development and UX. I helped to translate client needs to production ready specifications.

› Skyweb web development studio

2007 - 2010

My first venture to build websites and web applications for clients. As a founder I participated and oversaw development.

List of my projects

› Stunn video editor / Presenter

Full frontend, design, UX of a browser based video editor

[Visit project](#)
